Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

Date of issue: 11/11/2016 Revision date: January 3, 2020

SECTION 1: Identification

1.1. Product identifier

Product form : Substance
Substance name : Dust Air™
Product code : Not available

1.2. Recommended use and restrictions on use

Use of the substance/mixture : Removing dust from sensitive areas/equipment

1.3. Supplier

Supplier

HSI Fire and Safety Group, LLC

HSI Fire and Safety Group, LLC

107 Garlisch Drive unit # 1252

Elk Grove Village, IL - U.S.A.

T +1 (847) 427-8340 - F +1 (847) 427-8343

3-1750 The Queensway
Etobicoke, ON M9C5H5

tbaraket@hsifiresafety.com

1.4. Emergency telephone number

Emergency number : CHEMTREC 1 (800) 424-9300

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture

Classification (GHS-CA)

Flam. Aerosol 1 H222 Liquefied gas H280 Simple Asphy H380

2.2. GHS Label elements, including precautionary statements

GHS-CA labelling

Signal word (GHS-CA)

Hazard pictograms (GHS-CA)

GHS02 : Danger

Hazard statements (GHS-CA) : H222 - Extremely flammable aerosol

H280 - Contains gas under pressure; may explode if heated H380 - May displace oxygen and cause rapid suffocation

Precautionary statements (GHS-CA) : P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No

smoking

P211 - Do not spray on an open flame or other ignition source

P251 - Do not pierce or burn, even after use

P410+P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F

P403 - Store in a well-ventilated place

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS-CA)

Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substances

Name	Product identifier	%
1,1-Difluoroethane	(CAS No) 75-37-6	100

3.2. Mixtures

Not applicable

11/11/2016 EN (English) Page 1

Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

		measures

4.4	December	. 41 5 4	Clarate a Lat.	
4.1.	Descri	ption of i	rirst aid	measures

First-aid measures after inhalation

: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical advice/attention if you feel unwell.

First-aid measures after skin contact

: If irritation occurs, flush skin with plenty of water. Get medical attention if irritation persists. Thaw frosted parts with lukewarm water. Do not rub affected area.

First-aid measures after eve contact

: In case of contact, immediately flush eyes with plenty of water. Remove contact lenses, if worn. If irritation persists, get medical attention. Thaw frosted parts with lukewarm water. Do not rub

First-aid measures after indestion

: Not a normal route of exposure. If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

4.2. Most important symptoms and effects (acute and delayed)

Symptoms/injuries after inhalation

: May cause respiratory tract irritation. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Symptoms of oxygen deficiency include respiratory difficulty, headache, dizziness, nausea, unconsciousness or death.

Symptoms/injuries after skin contact

: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin. May cause frostbite on contact with the liquefied gas.

Symptoms/injuries after eye contact

May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling. May cause frostbite on contact with the liquefied gas.

Symptoms/injuries after ingestion

: Not a normal route of exposure. May be harmful if swallowed. May cause stomach distress, nausea or vomiting.

4.3. Immediate medical attention and special treatment, if necessary

Other medical advice or treatment

: Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

SECTION 5: Fire-fighting measures

5.1. Suitable extinguishing media

Suitable extinguishing media : Water spray. Foam. Dry chemical.

5.2. Unsuitable extinguishing media

Unsuitable extinguishing media : Do not use carbon dioxide.

5.3. Specific hazards arising from the hazardous product

Fire hazard

: Extremely flammable aerosol. Products of combustion may include, and are not limited to: oxides of carbon. Hydrogen fluoride. Carbonyl fluoride.

Explosion hazard

: Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.

5.4. Special protective equipment and precautions for fire-fighters

Protection during firefighting

: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA). Vapors may be heavier than air and may travel along the ground to a distant ignition source and flash back. Use water spray to keep fire-exposed containers cool.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures

: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Eliminate sources of ignition.

6.2. Methods and materials for containment and cleaning up

For containment

: Stop leak if safe to do so. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks).

Methods for cleaning up : Provide ventilation

6.3. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection"

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling

: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Pressurized container: Do not pierce or burn, even after use. Do not spray on an open flame or other ignition source. Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not swallow. Container may explode if heated. . Use only non-sparking tools. When using do not eat, drink or smoke. Use only in well-ventilated areas.

Hygiene measures

: Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking.

Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Keep out of the reach of children. Do not expose to temperatures exceeding 50 °C/ 122 °F.

Store away from direct sunlight or other heat sources. Store in a dry, cool and well-ventilated

area.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No additional information available

8.2. Appropriate engineering controls

Appropriate engineering controls : Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below

recommended exposure limits.

8.3. Individual protection measures/Personal protective equipment

Personal protective equipment : Avoid all unnecessary exposure.

Hand protection : Wear chemically resistant protective gloves.

Eye protection : Safety glasses or goggles are recommended when using product.

Skin and body protection : Wear suitable protective clothing.

Respiratory protection : A NIOSH approved respirator is recommended in poorly ventilated areas or when permissible

exposure limits may be exceeded. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected

respirator.

Environmental exposure controls : Maintain levels below Community environmental protection thresholds.

Other information : Do not eat, smoke or drink where material is handled, processed or stored. Wash hands

carefully before eating or smoking. Handle according to established industrial hygiene and

safety practices.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state : Liquid **Appearance** : Aerosol : Colourless Colour Odourless Odour Odour threshold No data available No data available Hq pH solution : No data available : No data available Relative evaporation rate (butylacetate=1)

Relative evaporation rate (ether=1) : > 1

Melting point : < -75 °C (< -99 °F)

Freezing point : No data available

Boiling point : -25 °C (-13 °F)

Flash point : < -75 °C (< -99 °F)

Auto-ignition temperature : > 462 °C (> 863 °F)

Decomposition temperature : No data available

Flammability (solid, gas) : Flammable

Vapour pressure : 4.31 bar @ 21 °C (70 °F), 64 psig; 11.7 bar @ 54 °C (129 °F), 178 psig

Vapour pressure at 50 °C : No data available Relative vapour density at 20 °C : 2.28 @ 21 °C (70 °F)

Relative density : 0.91 g/ml @ 21 °C (70 °F); 0.809 g/ml @ 54 °C (130 °F)

Relative density of saturated gas/air mixture : No data available
Density : No data available
Relative gas density : No data available

Solubility : Water: 0.008 % @ 21 °C (70 °F)

Partition coefficient n-octanol/water : 1.43

Log Kow : No data available

Viscosity, kinematic : No data available

Viscosity, dynamic : < 0.6 cP @ 21 °C (70 °F)

Explosive properties : No data available

Oxidising properties : No data available

Explosive limits : 3.9 - 16.9 vol % @ 25 °C (77 °F)

11/11/2016 EN (English) 3/5

Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

9.2. Other information

VOC content : 100 %

SECTION 10: Stability and reactivity

Reactivity 10.1.

Reactivity : No dangerous reaction known under conditions of normal use.

Stable under normal storage conditions. Extremely flammable aerosol. Contents under Chemical stability

pressure. Container may explode if heated. Do not puncture. Do not burn.

Possibility of hazardous reactions : No dangerous reaction known under conditions of normal use

Conditions to avoid : Incompatible materials. Sources of ignition. Direct sunlight. Moisture.

Incompatible materials : Acids. Strong oxidizing agents. Alkali metals.

Hazardous decomposition products : May include, and are not limited to: oxides of carbon. Hydrogen fluoride. Carbonyl fluoride.

SECTION 11: Toxicological information

Information on toxicological effects 11.1.

: Not classified. Acute toxicity (oral) Acute toxicity (dermal) : Not classified. Acute toxicity (inhalation) : Not classified.

Dust Air™	
LD50 oral rat	No data available
LD50 dermal rabbit	No data available
LC50 inhalation rat	No data available

Skin corrosion/irritation : Not classified. Serious eye damage/irritation : Not classified. Not classified. Respiratory or skin sensitization Not classified. Germ cell mutagenicity Carcinogenicity : Not classified. Reproductive toxicity : Not classified. STOT-single exposure Not classified STOT-repeated exposure : Not classified. : Not classified. Aspiration hazard

Dust Air™	
Vaporizer	Aerosol

Symptoms/injuries after inhalation : May cause respiratory tract irritation. Intentional misuse by deliberately concentrating and

inhaling the contents may be harmful or fatal. Symptoms of oxygen deficiency include respiratory difficulty, headache, dizziness, nausea, unconsciousness or death.

Symptoms/injuries after skin contact May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the

skin. May cause frostbite on contact with the liquefied gas.

May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear Symptoms/injuries after eye contact

production, with possible redness and swelling. May cause frostbite on contact with the

liquefied gas.

Symptoms/injuries after ingestion Not a normal route of exposure. May be harmful if swallowed. May cause stomach distress,

nausea or vomiting.

SECTION 12: Ecological information

Toxicity

: May cause long-term adverse effects in the aquatic environment. Ecology - general

12.2. Persistence and degradability

Dust Air™	
Persistence and degradability	Not established.

Bioaccumulative potential 12.3.

Dust Air™		
Partition coefficient n-octanol/water	1.43	
Bioaccumulative potential	Not established.	

Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

12.4. Mobility in soil

Dust Air™	
Partition coefficient n-octanol/water	1.43

12.5. Other adverse effects

No additional information available

SECTION 13: Disposal considerations

Disposal methods

: This material must be disposed of in accordance with all local, state, provincial, and federal Waste disposal recommendations

regulations. The generation of waste should be avoided or minimized wherever possible.

Additional information : Flammable vapours may accumulate in the container.

SECTION 14: Transport information

14.1. **Basic shipping description**

In accordance with TDG

TDG

UN-No. (TDG) : UN1030 TDG Primary Hazard Classes : 2.1

: UN1030 1,1-DIFLUOROETHANE, 2.1 Transport document description Proper Shipping Name (TDG) : 1,1-Difluoroethane, limited quantities

Hazard labels (TDG)

Transport information/DOT

No additional information available

14.3. Air and sea transport

IMDG

UN-No. (IMDG) : 1030

Proper Shipping Name (IMDG) : 1,1-DIFLUOROETHANE (REFRIGERANT GAS R 152a)

: 2 - Gases Class (IMDG)

IATA

UN-No. (IATA) : 1030

Proper Shipping Name (IATA) : 1,1-Difluoroethane

Class (IATA) : 2

SECTION 15: Regulatory information

15.1. National regulations

All components of this product are listed, or excluded from listing, on the Canadian DSL (Domestic Substances List) and NDSL (Non-Domestic Substances List) inventories.

15.2. International regulations

No additional information available

SECTION 16: Other information

Date of issue : 11/11/2016 Revision date : 01/03/2020

Indication of changes:

11/11/2016

Other information : None.
